

FINANCING EXPANSION

UB Community Development prides itself in stimulating investment and job creation in targeted communities. Our passion for improving the communities around us, make UBCD a premier financial partner for rural economic and community development.

STRENGTHENING COMMUNITIES, IMPROVING LIVES

Our initiatives are directed to improve the social and economic conditions of communities. We serve communities by providing funding solutions designed to increase economic development, create jobs and promote better access to goods and services. We are making a strong economic impact through projects which improve access to municipal and healthcare facilities, rural water systems, nonprofit programs, and community facilities, such as farmers markets and volunteer fire departments.

HOW DO I APPLY?
